

Welcome to TUM!
Welcome to the
M.Sc. Information
Engineering program!

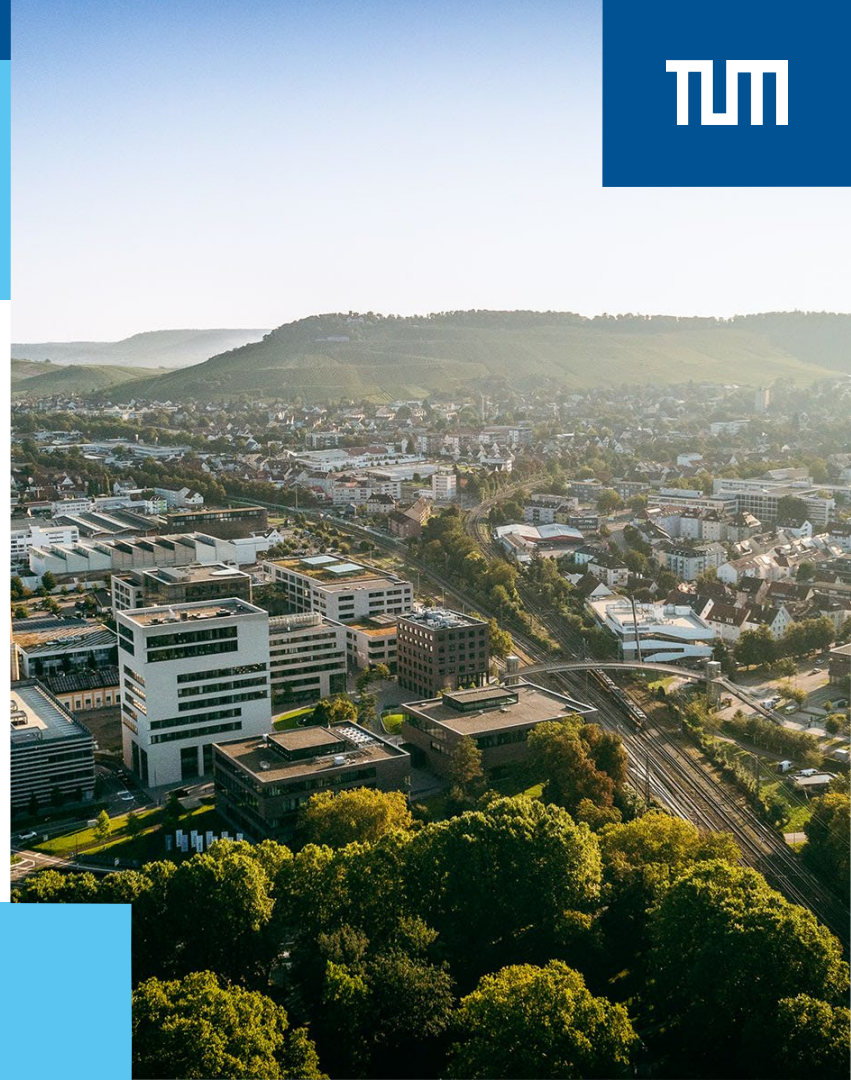

Introduction to your program

April 16th, 2025

Today you will get information about...

- ✓ Life at the campus & services
- ✓ the study program incl. important regulations
- ✓ the recognition of previous achievements
- ✓ semesters abroad
- ✓ events and programs

About us: CIT School Office Heilbronn, Academic and Student Affairs

Leonie Kontusch
Head of Academic
and Student Affairs

Denise Varlien
Deputy Head of Academic
and Student Affairs

Katrin Toborg
Administrative Staff Academic
and Student Affairs

Selina Eid
Administrative Staff Academic
and Student Affairs

Kumali Schoen
Administrative Staff Academic
and Student Affairs

- Study-related questions and offers accompanying events.
- Questions regarding lectures, exams and recognitions of achievements of former studies.
- Emails regarding important regulations, information on modules and exams and further interesting news for you.

How to reach us

Our website serves as the guide through your whole program:

www.cit.tum.de/en/cit/studies/degree-programs/master-information-engineering

You can reach us via email:

ie-master@hn.cit.tum.de

Consultation hours:

<https://www.cit.tum.de/en/cit/studies/degree-programs/master-information-engineering/consultation-contact/>

Information Engineering Student numbers

Can you guess how many Information Engineering students are studying together with you?

Today, we have a total of 317 Bachelor and a total of 31 Master students.

Students per cohort
April 2025

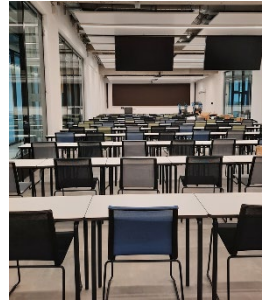

Heilbronn City – 1000m from Campus

TUM Campus Heilbronn

1. "Etzelstraße"

Etzelstraße 38, 74076 Heilbronn

2. "Weipertstraße"

Weipertstraße 8-10,
74076 Heilbronn

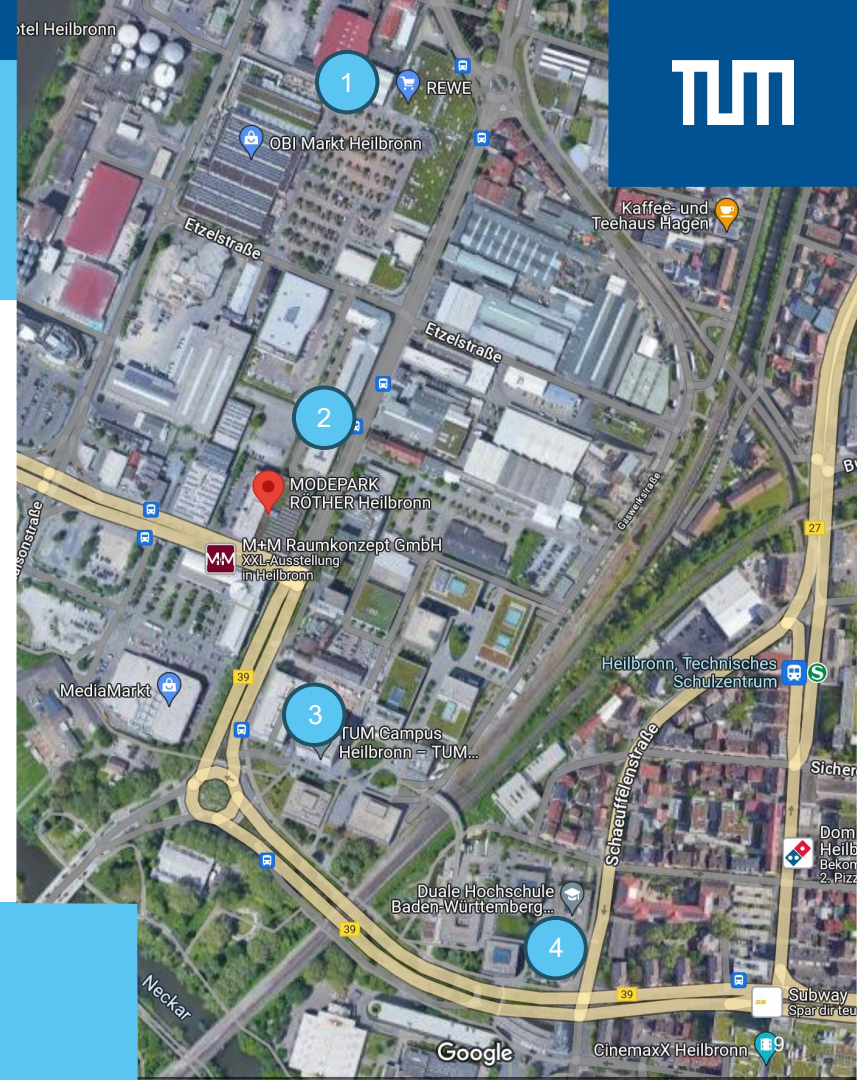

3. „L building“ Bildungscampus 9, 74076 Heilbronn

4. „D building“

Bildungscampus 2, 74076 Heilbronn

Schools & Programs

Mottos

- “Where management meets technology”
- “For the digital age”

Schools & Students

- Computation, Information and Technology (since 2021)
- Management (since 2018)
- Approx. 1.000 TUM Students at the moment

Programs CIT

- Bachelor in Information Engineering
- Master in Information Engineering

Programs MGT

- Bachelor in Management & Data Science
- Master in Management
- Master in Management & Digital Technology

TUM School of Computation, Information and Technology

The TUM School of Computation, Information and Technology

- was established on **October 1st, 2022**.
- unites the disciplines **Mathematics, Informatics** and **Electrical and Computer Engineering**.
- covers the entire research domain of **Computation, Information and Technology**.

Locations:

- Garching (Munich), Bavaria
- Heilbronn, Baden-Württemberg

Academic Disciplines contributing to Information Engineering

Informatics

Management

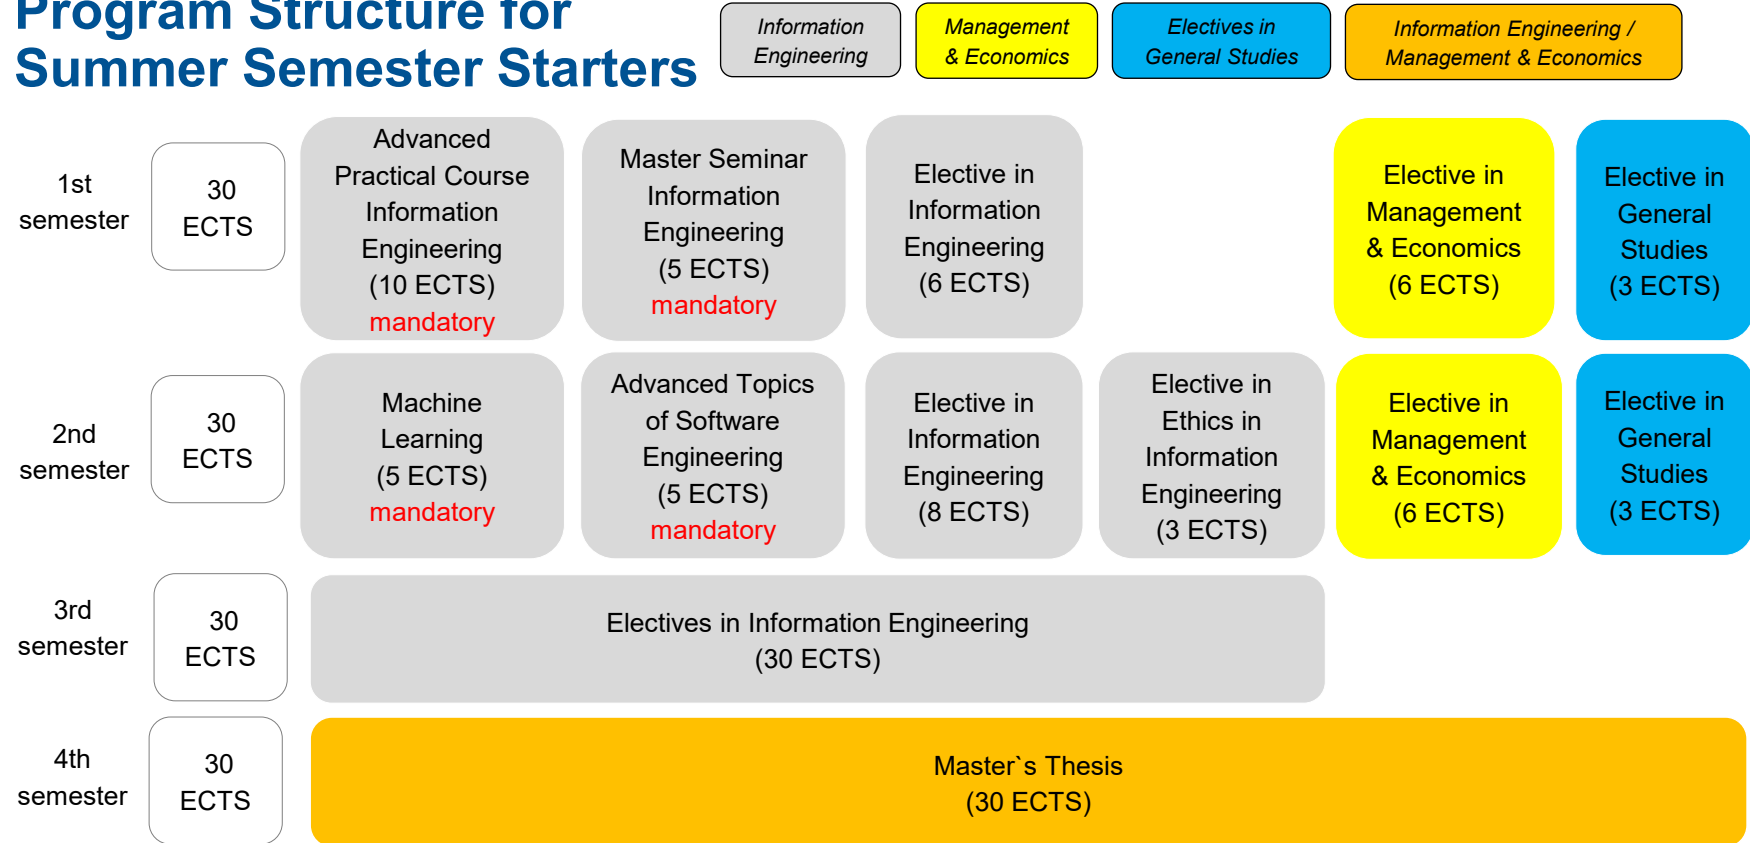

Computer Engineering

Key Facts

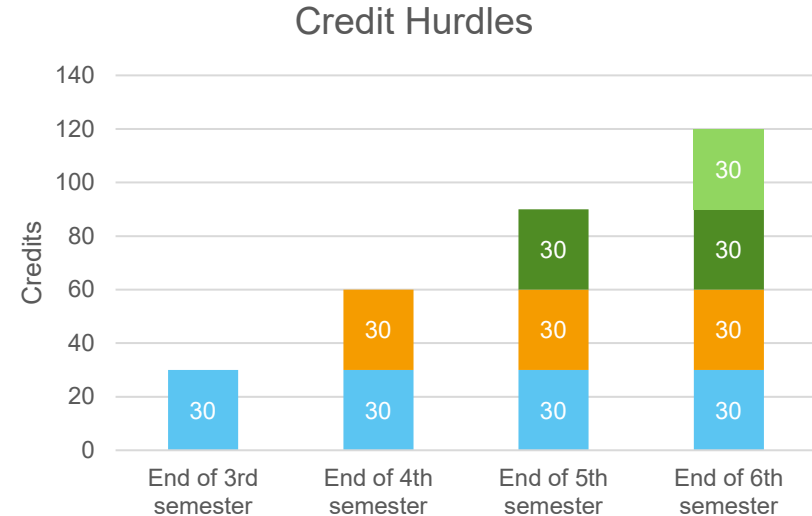

Degree	Master of Science
Duration	4 semesters
Program start	Winter semester / Summer semester
Language of instruction	English
Location	Heilbronn
Fees	85 € per semester
Distinctive feature	Excellent academic qualification as an engineer of cyber-physical business systems

Program Structure for Summer Semester Starters

Important regulations

- The master's program can be designed very freely, with the exception of four compulsory courses and the final thesis.
- **Study progress control - you must have a certain amount of credits in the end starting with your 3rd semester:**

Seminars and Practical Courses

Summer Semester 2025

Seminars

- Gamified Information Systems (INHN4503), 5 ECTS
- Advanced Topics High-Performance Computing, 5 ECTS
- AI-Augmented BPM (INHN4500), 5 ECTS
- Generative Models on Text (INHN4504), 5 ECTS

Practical Course

- Building an Advanced BPM Research App (INHN4550), 10 ECTS

Electives in General Studies

Summer Semester 2025

You will round off your individual competence profile with modules from the area of Electives in General Studies. You can choose from a range of soft skills events depending on your interests. You must earn at least **6 credits**.

- Intercultural Jumpstart Seminar (CITHN50001), 3 ECTS
- Design Thinking (CITHN50004), 3 ECTS
- Basics Sustainability (CITHN50005), 3 ECTS
- Several Language Courses

- *Buddy Program (CITHN50002), 3 ECTS (for Buddies)*

Elective Modules in Informatics

Summer Semester 2025

Modules totaling 44 credits must be taken from this catalog.

- Advanced Software Testing and Analysis (CITHN2001), 6 ECTS
- Network Coding (CITHN2002), 6 ECTS
- Parallel Computing (CITHN2003), 5 ECTS
- Numerical Linear Algebra for Computational Science and Information (CITHN2006), 5 ECTS
- Knowledge Graphs (CITHN2009), 6 ECTS
- Introduction to C++ (CITHN2012), 5 ECTS
- Foundations and Application of Generative AI (CITHN2014), 6 ECTS
- Guided Research (CITHN4012), 10 ECTS
- Computational Geometry (CITHN4017), 5 ECTS
- Games on Graphs (CITHN4019), 6 ECTS
- Mathematical Foundation of Cryptography (CITHN4018), 6 ECTS

Electives in Ethics

Summer Semester 2025

Modules totaling 3 credits must be taken from this catalog.

- Ethics for Nerds (INHN0030), 3 ECTS
- Digital Responsibility for Information Engineering (CITHN40001), 3 ECTS

Electives in Management & Economics

Summer Semester 2025

Modules totaling 12 credits must be taken from this catalog.

- Social Media Marketing (MGTHN0095), 6 ECTS
- CEO Leadership Series (MGTHN0097), 6 ECTS

Schedule Summer Semester 2025

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:15 - 09:45		Mathematical Foundation of Cryptography (Luttenberger) D.2.11			
9:45 - 10:15			Parallel Computing + Exercise (Anzt) Start at: 8:45 D.2.01		
10:15 - 11:45		PC: Building an advanced BPM Research App (Pufahl) Weipertstr. B.0.22		Gamified Information Systems (Sunyaev) Weipertstr. B.0.22	Network Coding (Günther) D.2.01 / L.0.13
11:45 - 12:15					
12:15 - 13:45	Foundation & Application of Generative AI (Chen) Start 11:30 am D.2.01	Computational Geometry (Kobourov) D.2.01	Exercise 2: Foundation & Application of Generative AI (Chen) B.0.43	Introduction to C++ (Anzt) D.2.11	Block course: Ethics for Nerds (Trinitis)
13:45 - 14:15					Block course: Digital Responsibility for Information Engineering (Prof. Stich) MGTHN0158
14:15 - 15:45	Electives in Management: Social Media Marketing (MGTHN0095) (Volkmer) Mo. & Tu. 2:15 – 3:45	Knowledge Graphs (Acosta) D.2.01	Exercise 3: Foundation & Application of Generative AI (Chen) B.0.43	Numerical LA for Computational Science and IE (Anzt) D.2.11	AI-Augmented BPM (Pufahl) B.0.22
15:45 - 16:15		Exercise Knowledge Graphs (Acosta) D.2.01		Network Coding (Günther) D.2.01	Exercise: Advanced Software Testing and Analysis (Wagner) D.2.11
16:15 - 17:45	Games on Graphs + Exercise (Luttenberger) D.2.11	Exercise 1: Foundation & Application of Generative AI (Chen) B.0.43	Games on Graphs (Luttenberger) B.0.43	Seminar: Advanced Topics High-Performance Computing (Anzt) B.0.23	Seminar: Generative Models on Text (Fraser) Weipertstr. B.0.22
17:45 - 18:15			Mathematical Foundation of Cryptography + Exercise (Luttenberger) D.2.01		
18:15 - 19:45					

- ☐ Mandatory course
- ☐ Seminar
- ☐ Practical course
- ☐ Informatics
- ☐ Electives
- ☐ Ethics Electives

Language Courses: Option 1

You have the opportunity to take language courses during your studies.

There are two main options.

Option 1: You can cover the entire 6 ECTS of the interdisciplinary area of your curriculum with the language courses.

- **Courses from your study tree:** You can take a course at the TUM Language Center. In your [study tree in TUMonline](#) you will find courses that can be recognized for your curriculum.
- **Courses at the TUM Language Center:** You can also independently search for courses at the [TUM Language Center](#) and take them.
 - All language courses at the TUM Language Center - with the exception of English courses of all levels - can be recognized for your curriculum.
 - Feasible? They should be online or, if you register for a course in Munich or Garching: it should be logistically possible for you to join them there.

Language Courses: Option 2

Option 2: Courses which are not part of your curriculum

At TUM Campus Heilbronn, you have the possibility to take one German class of an external language school for free.

The Service Point bundles the registrations for these German courses.

They will be held by the “Goethe Institut”, the “aim Akademie” and the “Volkshochschule”.

If you are interested in those or other possibilities, please get in touch with the Service Point in person or by email at:

servicepoint@chn.tum.de

Exam periods and retakes

- **First Examination Period:** 28.07.2025 – 15.08.2025 (3 weeks after the lecture period)
- **Second Examination Period:** 29.09.2025 – 10.10.2025 (2 weeks before the new lecture period)
- **Registration Periods for Written Exams (via TUMonline):**
1st Registration Period: 26.05.2025 – 30.06.2025
2nd Registration Period: 08.09.2025 – 22.09.2025
- **Deregistration:** Possible via TUMonline until one week before the exam.
- **Seminars, Practicals & Essays:** Registration is handled directly by the respective Professors.
- **Exam Retake Policy:**
Written exams can be repeated as often as necessary — there is no limit.
Exception: The Master's Thesis cannot be repeated.

Non-attendance and illness

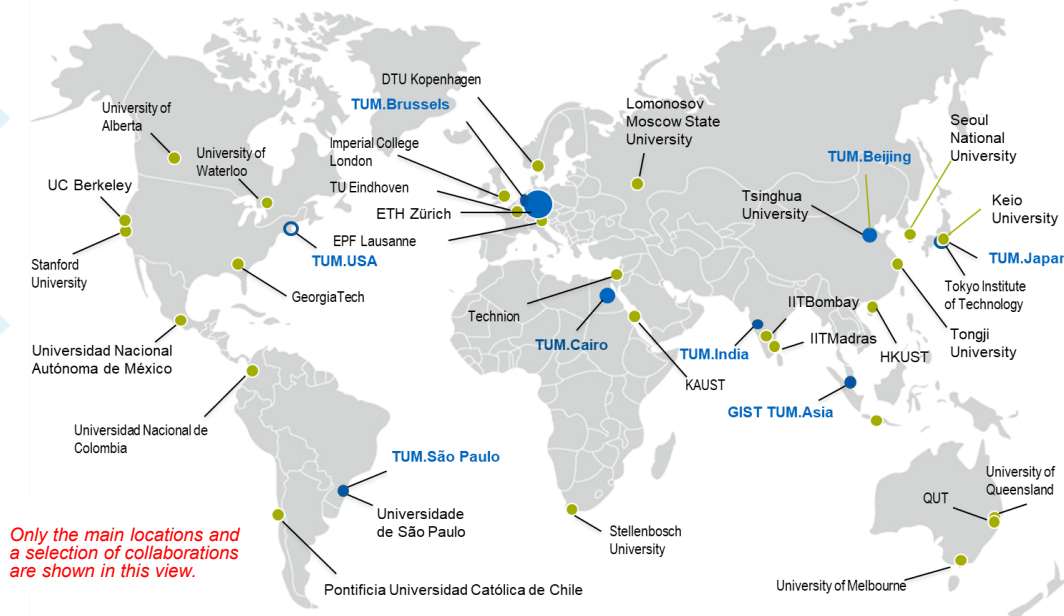

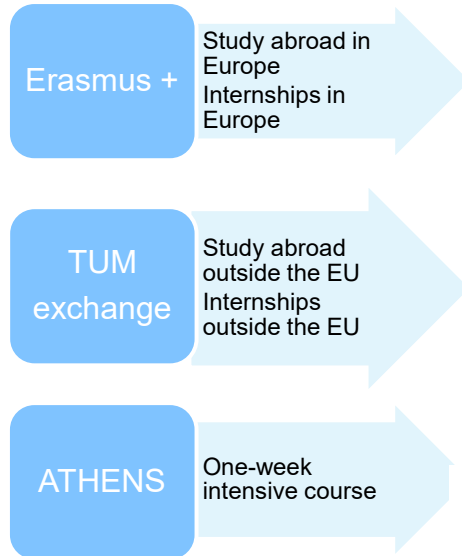

- **Non-Attendance at an Exam:**
 - If you miss an exam without deregistering, it will be recorded as a **5 - X** (not attending) in your examination report on TUMonline.
 - You are allowed to retake the exam as many times as necessary.
 - Once you pass, the grade 5 – X will be replaced by your new grade, and only the new grade will appear on your transcript.
- **Grade Report for Internships:**
 - Only passed exams will appear on the grade report (Leistungsnachweis).
 - This document can be used when applying for internships.
- **Medical Certificates:**
 - In general, you don't need a medical certificate if you cancel your registration before the exam.
 - If you are ill on the exam day, a medical certificate is not required immediately — but it is strongly recommended to obtain one and keep it in case it is needed later for a hardship application.

Exchange programs & international locations

www.international.tum.de/en/going-abroad

150 partner universities

320 ERASMUS cooperations

Please mind the application deadlines!

Counselling for Exchange Studies

Please note that usually you have to start the preparation up to 1,5 years before departure

Deadlines for the exchange 2026/27 (Winter Semester 26/27 & Summer Semester 27):

- Deadline for TUMexchange-Program: mid/late-October (tbc)
see <https://www.international.tum.de/en/global/tumexchange/>
- Deadline for Erasmus: early/mid-January (tbc)
see <https://www.international.tum.de/en/global/erasmusstudies/>

Get more information here: **Marlene Radinger**

Outgoing Student Exchange Coordination, TUM CIT Informatics
outgoing-informatics@cit.tum.de
www.cit.tum.de/en/cit/studies/international/informatics-outgoing

Online Infosessions:

- Non-European: TUMexchange: May/June 2025 (tbc)
- Europe: Erasmus Infoevent: November 2025 (tbc)

Counselling for (Research) Internships/ Thesis Abroad

- (Research) Internships or writing your thesis abroad as a great alternative to classical study exchange stay abroad
- Completely self-organized, i.e. maximum flexibility with destinations & projects
- Less preparation time in advance: at least ca. 6 months before departure
- Experience reports: <https://tum.adv-pub.moveon4.de/internships-abroad/>

Get more information here: **Lena Hengstler**

Coordination for (Research) Internships/Thesis abroad, TUM CIT Informatics
outgoing-informatics@cit.tum.de

Consultation upon request
www.cit.tum.de/en/cit/studies/international/informatics-outgoing

Recognition of Achievements from previous studies

Only possible once within the first year of study (until 31st of March, 2026)

Two-Step Process:

1. Formal Check: Assessment by the Academic and Student Affairs (ASA) office
 - Is the application formally correct? Are all required documents submitted? Has the module been successfully passed (transcript)?
2. Content Check: Assessment by the professor/expert who is responsible for the module
 - Do the learning outcomes and skills match with TUM (module descriptions)?

We highly recommend a consultation before you submit your application. Please visit our website for more information.

Infosession
tomorrow:
Thursday,
17th of April
via Zoom!

Show solidarity!

TUM Campus Heilbronn:

- Most of the 1.000 students come from abroad
- From over 50 countries
- ✓ **international experience**
- ✓ **intercultural understanding**
- ✓ **Challenging!**
- Our Code of Conduct.

Please behave thoughtful and show solidarity!

Code of Conduct

www.mgt.tum.de/about/our-code-of-conduct

TUM School of Management - Code of Conduct

In accordance with the school's mission, vision and strategy TUM School of Management commits itself to the highest ethical standards of personal and collective behavior. Honesty, fairness, trust, respect, integrity, diversity and equality. This Code of Conduct is a guideline to ensure a respectful and enjoyable environment at TUM School of Management.

Honesty

Being truthful and sincere in communication and action. At TUM this value of honesty should be reflected in your conduct and your compliance with TUM's legislation and regulations.

Trust

Believe that people are good and honest and mean you no harm. Trust that you can rely on information given to you. Reflect the value in your own behavior by being honest and respectful. Give people a reason to trust you.

Diversity

Respecting everyone regardless of their ethnicity, gender, physical abilities, cultural background, religion or belief, socio-economic status, sexual orientation, life-style, age, interests and experiences. At TUM we see diversity as an opportunity and an enrichment of our community.

Sustainability

Maintaining environmental resources at a level that does not exhaust natural resources or produce unnecessary waste.

Responsibility

Understanding our educational mission as a responsibility towards society. Scientific advancement strives for the improvement of human life and coexistence.

Fairness

Making decisions impartially and objectively. Conduct is free from competing self-interest, prejudice, nepotism and favoritism. Be open when meeting people in a fair and unprejudiced way.

Equality

Recognize that each individual is unique and has unique preconditions, abilities or disabilities. Everyone deserves an equal chance regardless of where they have come from. Appreciate that there are those who require particular care and attention in order to establish a general state of equality of opportunity.

Science

Applying a scientific approach, evaluating our own unconscious biases, challenging dogmas, and doubting that which has not been proven.

Meet new people in a fair and unprejudiced way!

These standards guide and challenge the community in its principles of thinking and acting in accordance with TUM's strategic core values: Responsibility, ethics, research orientation, relevance, engagement, excellence and innovation. They should also act as the foundation to our commitment to diversity and equality. Positive and empathetic interaction with one another builds bridges to trust, respect, and understanding across cultures.

Committing to Values

All members of TUM School of Management are individually accountable for their own actions and, as a community, we are collectively responsible for sustaining the school's ethical standards and acting in compliance with all principles and commitments of the Code of Conduct.

Sustainable Behavior

- Use consumable resources (electricity, water, plastic, paper etc.) responsibly.
- Seek to reduce, separate and recycle waste.
- Even if not explicitly requested, consider sustainability in all aspects of university life.

Behavior in Research

- Be aware of your responsibility for people, society and the environment of your research.
- Avoid plagiarism, ensure that all sources are cited and check their reliability.

In-Class Behavior

- Give everyone in class the chance to speak their mind and contribute.
- Use inclusive language, free of violence and discrimination.
- Treat everyone in a fair and unprejudiced way.

Lecturer Behavior

- Be aware of your social responsibility when teaching.
- Understand that your teaching is a service for our students.
- Treat students with respect and treat them equally and fairly.

Student Behavior

- Only sign up for courses you really intend to attend, especially when using the seminar-placement tool. This avoids blocking course other students to attend.
- Do not sign up for more exams than you intend to take. Be sure to consider the time you must spend in each course, and manage your time accordingly.
- If you are pursuing a degree, please only accept a placement from our international office. If you really intend to go. Once a placement is accepted, we are unable to redistribute it to another student - even if you voluntarily reject the place.

Social Media Behavior

- Adhere to the same standards of behavior online as you would in respectful face-to-face interactions with others.
- When using digital and social media, be mindful that materials posted online can be created easily and can continue to exist even if the original item is removed.
- Do not copy or share personal information (pictures, grades or lecture notes) without their explicit permission.
- Be a model of civil conduct in a diverse and digital society.
- Be reflexive. Analyze online sources with particular care and be thorough in your probing of information you find online.

Please check your
emails daily!

Offers in case of mental issues

- In case of mental issues, the **Service Point** is always there for you with advise about according offers on Campus.
- **Psychological counselling** through Studierendenwerk
 - [Psychosocial counselling centre \(hs-heilbronn.de\)](https://www.hs-heilbronn.de).
 - Arrange an appointment on Campus: <https://www.hs-heilbronn.de/en/psychosocial-counselling-centre>
- “**Consultation via phone**”: International Helplines - TelefonSeelsorge® Deutschland:
 - <https://www.telefonseelsorge.de/international-helplines/>
- **General TUM-information**: <https://www.tum.de/en/studies/support-and-advice/wellbeing/help-with-mental-stress>
- **Special programs** „4mind“: www.tum.de/tum4mind

Student Service Point

The Student Service Point of TUM gGmbH offers advice in non-academic questions like

- Accommodation
 - Insurances
 - opening a bank account
 - etc.
- information and advice on offers on **campus** and on important issues of **student life**.
- Bildungscampus 2 (“D-building”)
- almost any time
- without appointment!

Vanesa González Taboada, Nicole Jäger, Beate Polap

Student Service Point

Contact

Web: www.chn.tum.de/campus/student-services

Email: servicepoint@chn.tum.de

Tel.: +49 7131 26418 699

Bildungscampus 2, ground floor

Opening hours

Monday, Tuesday, Wednesday: 8:00 am – 4:00 pm

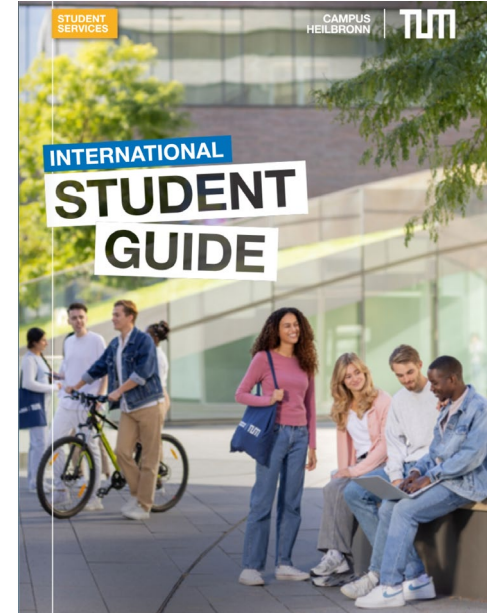

Thursday: 8:00 am – 5:00 pm

Friday: 9:00 am – 1:00 pm

Subscribe to the monthly newsletter:

https://mailings.tumheilbronn-ggmbh.de/anmeldeseite_service_point.jsp

Brochure about the Campus and the services from the Service Point

Clean your room!

- Please make sure that you clean your room and the rooms you might share with others (kitchen, bathroom) regularly.
- If you do not maintain and clean your accommodation as you are expected, you might **lose your accommodation**.
- Our student services provide a lot of information about the **cleaning standards** that are expected from you. They also provide information on **cleaning utensils** and where you can get them.

Emergency references

Free of charge telephone numbers

- Police: 110
- Emergency and fire services: 112
- Medical on-call service: 116117

Emergency exits

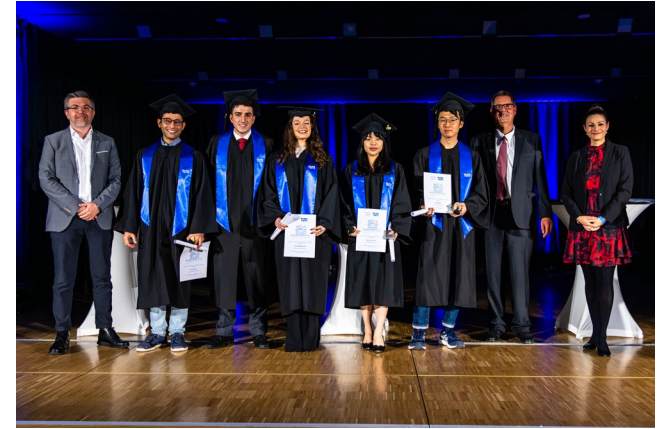

In buildings, please pay attention to this sign:

Your professors will show them to you within the first week of lectures. You are welcome to ask them about it!

More events and programs

- Fireside chats at the “Hotel Insel”
- Lectures by interesting personalities
- The Buddy Program
- “Campus Funfair”
- Sports events such as the “Stimme Firmenlauf”
- Graduation celebrations
- And many more!

The Buddy Program

Warm recommendation: Join our [“Buddy Program”](#)!

- Matching with older students.
- Your Buddy will show you around on campus, connects you with others, and helps you adjust to our campus and university life.

Take advantage of this unique and great opportunity!

- ✓ About 75% of our students take part
- ✓ Feedback is consistently positive
- ✓ In the third semester, about half of the students become a Buddy for new students.

Registration with your TUM email address :
