

Technical University of Munich TUM School of Management

Welcome to the Master in Management and Digital Technology at
TUM Campus Heilbronn!

March 6th , 2025

Program structure recommended

*It is recommended (not obligatory) to complete the electives in Methods and Digital Technology in the first and second semesters and the electives in Management in the third semester.

Program structure - Example

1st semester (30 ECTS)	2nd semester (30 ECTS)	3rd semester (30 ECTS)
Optional Specialization in Management (6 ECTS)	Optional Specialization in Management (12 ECTS)	Optional Specialization in Management (12 ECTS)
Digital Technology (18 ECTS)	Digital Technology (12 ECTS)	Electives in Management (18 ECTS)
Electives in Methods (6 ECTS)	Electives in Methods (6 ECTS)	

- **Optional specialization in management:**

At least 30 ECTS are related to digital enterprises or family enterprise

- **Electives in management:**

all master-level management courses offered at TUM Campus Heilbronn

- Mobility window
- Advanced Project Studies (12 ECTS)

Master's Thesis

4th semester (30 ECTS)

- The Master's Thesis is supervised by a TUM School of Management professor or a professor who teaches in the Master in Management & Digital Technology program.
- It can be done in collaboration with a company or a research institution. The thesis must be completed within six months.

4th sem.

Master's Thesis

Please note:

- You **need a minimum number of 48 ECTS to register the thesis**
(48 credits, of which at least 18 credits are from the technology specialization and 6 credits are from methods)
- Thesis topics are published on moodle: <https://www.moodle.tum.de/course/view.php?id=80273>

Proof of proficiency in German

All students **who did not gain their higher education entrance qualification (HZB) in a country with German as an official language and got the deferred condition “Requirement Proof of Proficiency in German”** in their admission letter are required to demonstrate basic knowledge in German of at least level A1.1. You should fulfill this requirement by the end of the second semester.

Various possibilities to prove proficiency:

- Passing of a module taught in German at TUM
- Certificate of a language course (at least A1.1) from TUM or any other institution
- German as part of your higher education entrance qualification (Abitur, A-level; High school diploma, etc.)
- Bachelor degree taught in German
- Exchange semester in Germany and passing a module taught in German
- Language certificate (e.g. Goethe-Zertifikat, TestDaF)

Please note:

- This applies for students who got the **deferred condition “Requirement Proof of Proficiency in German”** in their **admission letter**.
- Find more information and documents in the download section of our website: <https://www.mgt.tum.de/download-center>

Proof of basic programming skills

All students **who do not have basic programming skills** need to successfully complete the module MGTHN0144 –Programming for Management Studies by the **end of the second semester**. This only applies for students who got the **deferred condition in their admission letter**.

As the programming course is a condition to the admission of those students, **the 6 ECTS attached are therefore not counted in the 120 ECTS** of the master's program. Any MMDT students who would like to improve their programming skills can participate in this course on a voluntary basis.

Study Progress Requirements

- The program is a full-time degree program
- Average duration of study (*Regelstudienzeit*) = 4 semesters
- Maximum duration of study = 6 semesters
- Study progress requirements

Do not hesitate to contact your program manager in case you encounter any difficulties or need advice!

Deadline	Requirement
End of 3 rd semester	Min. 30 credits
End of 4 th semester	Min. 60 credits
End of 5 th semester	Min. 90 credits
End of 6 th semester	Min. 120 credits

→If these requirements are not met, you will automatically be deregistered!

Example study plan for students **without** prior programming knowledge

*No specialization chosen

Semester	Modules					Credits
1st Semester	Applied Regression Analysis (Elective) 6 ECTS	Data Science in Finance (Elective) 6 ECTS	Social Media Marketing (Elective - DE) 6 ECTS	Managing Legal Sustainability requirements in Family Enterprises (Elective - FE) 6 ECTS	CEO Leadership Series (Elective – FE) 6 ECTS	30 (+ 6ECTS for MGTHN0144 Programming for Management Studies)
2nd Semester	Advanced Business Research Methods (Elective) 6 ECTS	Data Science in Business and Economics with R (Elective) 6 ECTS	Economics and Management of Platforms (Elective) 6 ECTS	Eyetracking and Decision Making (Elective – DE) 6 ECTS	Advanced Seminar Management & Marketing: Strategic Management (Elective) 6 ECTS	30
3rd Semester Mobility window	Advanced Project Studies (Elective) 12 ECTS		Enterprise Architecture Management and Reference Models (Elective) 6 ECTS	Advanced International Excursion: Global Strategy (Elective - DE) 9 ECTS	Advanced Seminar Innovation & Entrepreneurship: Digital Innovation (Elective –DE) 6 ECTS	33
4th Semester	Master's Thesis					30

Example study plan for students **with** prior programming knowledge

*Specialization family enterprise

Semester	Modules					Credits
1st Semester	Meta-Analysis in Management Research: Techniques and Applications (Elective) 6 ECTS	Advanced Seminar: Real-World Applications of Deep Learning and Reinforcement Learning (Elective) 6 ECTS	Data Science in Business and Economics with R (Elective) 6 ECTS	Foundations and Applications of Generative AI (Elective) 6 ECTS	Managing Legal Sustainability requirements in Family Enterprises (Elective – FE) 6 ECTS	30
2nd Semester	Stochastic Models in Production and Logistics (Elective) 6 ECTS	Advanced Seminar Operations & Supply Chain Management: Business Analytics and its Application in Healthcare (Elective) 6 ECTS	Computer Networking and IT Security (Elective) 6 ECTS	CEO Strategy Series (Elective – FE) 6 ECTS	Business-to-Business Contract Negotiations (Elective – FE) 6 ECTS	30
3rd Semester Mobility window	Advanced Mastering the Skills for Academic Writing (Elective) 6 ECTS	Advanced Seminar in Economics & Policy: Technological Change, AI, and Labor Market Dynamics in Family and Non-Family Enterprises (Elective - FE) 6 ECTS	Advanced Seminar Innovation & Entrepreneurship: Sustainability In Entrepreneurship and Family Enterprises (Elective - FE) 6 ECTS	Advanced Seminar Management & Marketing: Strategic Management (Elective) 6 ECTS	Project and Innovation Management: Design thinking methodology (Elective) 6 ECTS	30
4th Semester	Master's Thesis					30

Registration process for the electives

Registration for the electives is open from March 1st to April 6th 2025. As a TUM fresher, you should be able to register from April 1st (official start of the summer semester).

- **You need to be fully enrolled** to be able to register for your courses in TUMonline.
- If you have questions regarding enrollment, please contact the [Center for Study and Teaching](#).
- While choosing your courses, don't forget to **mention your preferences** since some courses have limited places.

Online Seminar Introduction to TUMonline for MMDT students: March 26th 2025, 2 p.m. CEST (Registration Deadline: 24 March 2025); [link](#) and TAN: 2UAQY

Allocation of the places for the electives takes place **during the week of April 7th-11th**

- The registration time does not affect the matching. This is **no** first-come-first-served mechanism.

What to keep in mind while choosing your electives

- Read carefully the **module description** (intended learning outcomes, content, different [teaching formats](#), different [examination formats](#), etc.) and the **lecture description**. You have access to the module descriptions even without access to TUMonline: [Curriculum - TUMonline - Technische Universität München](#)
- Take into consideration the **prerequisites** mentioned for every module. Contact the lecturer directly if you have questions.
- Keep in mind the **program structure recommended** while taking advantage of the **flexibility** offered by the program.
- Remember the **mobility window**. Get yourself informed during the [info session on TUM SOMex and the possibilities to go abroad](#) on June 16th.
- We recommend you decide as soon as possible if you want to choose a **specialization** or not, and if yes, which one so that you can plan accordingly.
- Take into consideration the schedule of the courses as well as the exams so there is **no overlapping**.
- A **minimum of 1 advanced seminar** (6 ECTS) from „Specialization in management“ (30ECTS) needs to be successfully completed by the end of your studies. One is a minimum, it can be more.

Process for the allocation of places (SS2025)

Here are some of the main aspects you need to keep in mind for the allocation of places:

- You will have until April 6th to register for the **Advanced Seminars** and **courses with limited places**. The allocation of the places will be done the week after. If you are not fully enrolled, you won't be able to register for the courses.
- There will be one procedure for the **courses with unlimited places**, for which you will be able to register and deregister freely during the semester.* Please take into consideration the professors need to prepare accordingly and take a decision as soon as possible which courses you will be taken or not this semester.
- There will be one procedure for the **Advanced Seminars**, for which you will need to put your priorities from 1 to 5. Keep in mind you have to pass a min. of 1 Advanced Seminar in the Management category by the end of your studies. It can be a great idea to already take into consideration in which area/ with which professor you would like to write your master's thesis with and take an Advanced Seminar accordingly. *The third semester students as well as the students going abroad will have priority on the Advanced Seminars.
- There will be one procedure for the **courses with limited places**, for which you will need to put your priorities from 1 to 5.

*there may be some exception.

Process for the allocation of places (SS2025)

- If you need to deregister from an Advanced Seminar or a course with limited places for which you got a spot, you will need to send an email to studentcounseling_heilbronn@mgt.tum.de. Once again, we ask you to let us know as soon as possible to be fair to the other students.
- You will be able to see the courses with free places in TUMonline (the list won't be on the website) once the process of allocation of places is done. There will be no waiting list.
- Please read the module description **AND** the lecture description carefully and **check the pre-requisites** for the module. Some modules may have extra steps you need to take to get a spot.

Course catalog summer semester 2025

Methods

Module ID	Module	Responsible for the module
MGTHN0150	Applied Regression Analysis	Prof. Dr. Li
MGTHN0112	Simulation for Production and Logistics	Prof. Dr. Kiesmüller
MGTHN0179	Marketing Analytics	Prof. Dr. Eckert
MGTHN0175	Meta-Analysis in Management Research: Techniques and Applications	Guest lecturer: Prof. Dr. Christopher Schlägel (Uni Magdeburg)
MGTHN0176	Methods in Social Network Analysis	Guest lecturer Prof. Dr. Olaf Rank (Uni Freiburg)

Family Enterprise

Module ID	Module	Responsible for the module
WIHN0046	Advanced Seminar in Innovation & Entrepreneurship: Sustainability in Entrepreneurship & Family Enterprise	Prof. Dr. Bird
MGTHN0077	Advanced International Study Trip: Family & non-family firms around the world	Prof. Dr. Li
MGTHN0154	Managing Legal Sustainability requirements in Family Enterprises	Prof Dr. Jung
MGTHN0171	Advanced Seminar in Economics & Policy: Technological Change, AI, and Labor Market Dynamics in Family and Non-Family Enterprises	Prof Dr. Lergetporer
MGTHN0130	CEO Leadership Series	Prof Dr. Li

*Changes are possible

Digital Technology

Module ID	Module	Responsible for the module
MGTHN0177	Advanced Seminar Operations and Technology: Immersive Technologies in Business and Operations	Prof Dr. Wuttke
WIHN0043	Advanced Seminar: Real-World Applications of Deep Learning and Reinforcement Learning	Prof Dr. Xie
WIHN0117	Advanced Web Scraping with Python	Johannes Gölz
MGTHN0178	Data Science in Finance	Prof. Dr. Müller
CITHN2014	Foundations and Applications of Generative AI	Prof. Dr. Chen
INHN0017	Enterprise Architecture Management & Reference Models	Prof. Dr. Pufahl
MGTHN0125	Data Science in Business and Economics with R	Prof Dr. Lergetporer
MGTHN0094	Python and Advanced Data Science	Prof. Dr. Meißner
CITHN7501	Masterseminar: Generative Models on Text, 5 ECTS	Prof. Dr. Alex Fraser

Course catalog summer semester 2025

Digital Enterprises

Module ID	Module	Responsible for the module
WIHN0017	Advanced Seminar Innovation & Entrepreneurship: Digital Innovation	Alexander Stolte
MGTHN0095	Social Media Marketing	Prof. Dr. Meißner
WIHN0032	Business Forecasting	Prof. Dr. Kiesmüller
WIHN0022	Advanced Seminar Operations & Supply Chain Management: Digital Operations	Prof. Dr. Kiesmüller
MGTHN0123	Advanced Seminar Finance & Accounting: Artificial Intelligence and the Sustainable Development Goals	Prof. Dr. Stich

Course catalog summer semester 2025

Other management electives

Module ID	Module	Responsible for the module
WIHN0024	Advanced Seminar in Finance and Accounting: Current Research Topics in Empirical Capital Market Research	Prof. Dr. Müller
MGTHN0071	Advanced Seminar Management & Marketing: Strategic Management	Prof Dr. Li
MGTHN0090	Master Thesis Seminar: Strategic Management	Prof Dr. Li
MGTHN0080	Advanced Seminar in Economics & Policy: Economics of Education	Prof. Dr. Lergetporer
WIHN0044	Advanced Seminar in Innovation & Entrepreneurship: From idea to venture	Prof. Dr. Bird
MGTHN0173	Project and Innovation Management: Design thinking methodology	Prof. Dr. Jung

Deferring Admission

You have been admitted to TUM but need to defer your admission? Those are your 2 steps:

1- Decline your place in the degree program in your [TUMonline account](#). If this is no longer possible, contact studium@tum.de and state your applicant or application number. Declining a place in a degree program does not revoke the admission.

2- Re-apply for the semester you want to commence your studies in during the relevant application period using your existing TUMonline-Account, and upload all required documents.

You can find all the relevant information here: <https://www.tum.de/en/studies/application/enrollment-info-portal/deferring-admission>
